

Business Requirements Document (BRD) Template

Reference Template for Document Validation System

Use this template as the standard BRD structure for validating uploaded Business Requirements Documents. The validation system can compare section availability, section order, missing sections, extra sections, and overall structure similarity against this template.

1. Introduction

This section introduces the BRD and explains the business purpose of the document.

1.1 Purpose

Describe the purpose of this BRD document. Mention the business problem, expected outcome, and why the document is prepared.

1.2 Scope

Define what is included and excluded from the business requirement scope.

1.3 Business Background

Explain the current business situation, organization context, and reason for the proposed solution.

1.4 Objectives

List the main business objectives that the solution should achieve.

1.5 Stakeholders

Identify key stakeholders such as business users, administrators, management, technical teams, and external parties.

Stakeholder	Role	Responsibility	Expectation
[Enter details]	[Enter details]	[Enter details]	[Enter details]

1.6 Definitions, Acronyms, and Abbreviations

List important business terms, acronyms, and abbreviations used in this document.

1.7 References

List documents, policies, websites, standards, or other resources referred to when preparing this BRD.

2. Current Business Process

This section describes the existing business process and the problems in the current workflow.

2.1 Existing Process Overview

Explain how the current business process works before the proposed solution is introduced.

2.2 Current Process Issues

List the problems, limitations, delays, manual work, risks, or inefficiencies in the current process.

2.3 Business Needs

Describe the business needs that must be addressed by the proposed solution.

3. Proposed Solution

This section explains the proposed business solution and its expected value.

3.1 Proposed System Overview

Provide a high-level explanation of the proposed system or solution.

3.2 Business Benefits

List the expected business benefits such as efficiency, accuracy, cost reduction, better reporting, or improved user experience.

3.3 Success Criteria

Define measurable conditions that show the solution is successful.

3.4 Assumptions and Dependencies

List assumptions and dependencies that may affect the business requirements or solution delivery.

3.5 Constraints

Mention business, technical, legal, budget, time, or resource constraints.

4. Business Requirements

This section lists the business requirements that the solution must satisfy.

4.1 Functional Business Requirements

Describe the business functions that the system must support. Use requirement IDs such as BR-01, BR-02, and BR-03.

Req. ID	Requirement	Priority	Remarks
[Enter details]	[Enter details]	[Enter details]	[Enter details]

4.2 Non-Functional Business Requirements

Describe quality-related business requirements such as performance, usability, availability, reliability, and maintainability.

4.3 Reporting Requirements

Describe the reports, dashboards, summaries, analytics, or exported outputs required by the business.

4.4 Data Requirements

Describe the data that must be captured, processed, stored, searched, or displayed.

4.5 Security and Compliance Requirements

Describe access control, privacy, audit, compliance, and data protection requirements.

5. Stakeholder Requirements

This section describes stakeholder roles, expectations, and access needs.

5.1 User Roles

List and describe user roles such as Admin, Manager, Staff Member, Student, Customer, or Guest.

5.2 Stakeholder Expectations

Describe what each stakeholder expects from the proposed solution.

5.3 User Access Requirements

Define which users can access which features, data, reports, or administrative functions.

6. Business Rules

This section defines rules that control business decisions and system behavior.

6.1 Rule List

List business rules using IDs such as RULE-01, RULE-02, and RULE-03.

Rule ID	Business Rule	Description
[Enter details]	[Enter details]	[Enter details]

6.2 Validation Rules

Describe validation rules for inputs, documents, forms, approvals, transactions, or business data.

6.3 Exception Handling Rules

Describe how special cases, invalid inputs, rejected submissions, or approval exceptions should be handled.

7. Process Flow and Use Cases

This section explains how users and business processes interact with the proposed solution.

7.1 Business Process Flow

Insert or describe the proposed business process flow.

7.2 Use Case Summary

List the major use cases related to the business process.

7.3 Use Case Descriptions

Describe each use case with actor, precondition, main flow, alternative flow, and postcondition.

8. Risks and Impact Analysis

This section identifies possible risks and the business impact of the proposed solution.

8.1 Business Risks

List business, operational, technical, financial, or user adoption risks.

8.2 Impact on Users

Explain how the proposed solution affects users, departments, workflows, and responsibilities.

8.3 Mitigation Plan

Describe how identified risks can be reduced or managed.

9. Acceptance Criteria

This section defines how the business will decide whether the solution meets requirements.

9.1 Acceptance Conditions

List the conditions that must be satisfied before the solution can be accepted.

9.2 Approval Criteria

Describe who approves the BRD and what evidence is required for approval.

10. Validation Rules for BRD Document

This section can be used by your document validation system to check BRD structure.

10.1 Required Sections

The BRD document should include Introduction, Current Business Process, Proposed Solution, Business Requirements, Stakeholder Requirements, Business Rules, Process Flow and Use Cases, Risks and Impact Analysis, Acceptance Criteria, Validation Rules for BRD Document, and Appendices.

10.2 Validation Criteria

The validation system should check required sections, section name similarity, section order, missing sections, extra unrelated sections, and whether the document belongs to the BRD document type.

10.3 Scoring Criteria

75-100: Accept. 50-74: Needs Improvement. 0-49: Reject.

Score Range	Validation Result
75-100	Accept
50-74	Needs Improvement
0-49	Reject

11. Appendices

This section contains additional supporting information.

11.1 Appendix A: Supporting Documents

Attach or reference supporting documents, diagrams, forms, or business policies.

11.2 Appendix B: Additional Notes

Include any extra notes related to the BRD.
