

Requirements Traceability Matrix (RTM) Template

Reference Template for Document Validation System

Use this template as the standard reference structure for validating Requirements Traceability Matrix (RTM) submissions. The validation system can compare uploaded RTM documents against this template to verify required sections, traceability completeness, and overall document structure.

Document Information

Project Name	<Enter project name>
Document Title	Requirements Traceability Matrix
Document Version	<Enter version>
Prepared By	<Enter name>
Date	<Enter date>

Revision History

Version	Date	Description	Author
1.0	<Date>	Initial RTM Template	<Name>

1. Introduction

1.1 Purpose

Describe the purpose of the RTM and explain how it links requirements throughout the software development lifecycle.

1.2 Scope

Describe the requirements covered by this matrix.

1.3 References

List related documents such as BRD, FRD, SRS, Test Plan, and Test Cases.

1.4 Document Overview

Briefly explain the organization of this document.

2. Requirements Traceability Matrix

2.1 Traceability Matrix

Provide a matrix linking requirements to design, implementation, and testing.

Sample RTM Table

Matrix

Requirement ID | Requirement Description | Design Reference | Module | Test Case ID | Status | Remarks

3. Traceability Analysis

3.1 Requirement Coverage

Describe how all requirements are mapped.

3.2 Gap Analysis

Identify missing mappings or uncovered requirements.

3.3 Change Impact Analysis

Describe the impact of requirement changes.

4. Validation Rules

4.1 Required Sections

Introduction, Requirements Traceability Matrix, Traceability Analysis, Validation Rules, Appendices.

4.2 Validation Criteria

Check required sections, RTM table completeness, requirement IDs, traceability links, and document type.

4.3 Scoring Criteria

75-100 Accept, 50-74 Needs Improvement, 0-49 Reject.

5. Appendices

5.1 Appendix A

Supporting requirement mappings.

5.2 Appendix B

Additional notes.

Requirement ID	Requirement Description	Design Ref	Module	Test Case ID	Status	Remarks
FR-01	User Login	HLD-01	Auth	TC-01	Implemented	-
FR-02	Upload Document	HLD-02	Upload	TC-05	Implemented	-
