

Deployment Guide (DG) Template

Reference Template for Document Validation System

Document Information

Project Name: [Project Name]

Document Title: Deployment Guide (DG) Template

Document Version: 1.0

Prepared By: [Author Name]

Date: [Date]

Revision History: [Revision Details]

Approval History: [Approval Details]

1. Introduction

1.1 Purpose

Describe the purpose of this Deployment Guide and the specific release it targets.

1.2 Scope

Define the environments (e.g., UAT, Staging, Production) covered.

1.3 Definitions, Acronyms, and Abbreviations

List important terms used in the guide.

1.4 References

List related documents such as architecture diagrams or release notes.

1.5 Document Overview

Briefly explain how the rest of the document is organized.

2. Deployment Architecture

2.1 Target Environment Overview

Description of the servers, clusters, or cloud services involved.

2.2 Deployment Topology

Diagram or description of the deployment layout.

3. Pre-Deployment Activities

3.1 Communication Plan

Stakeholders to notify before and after deployment.

3.2 Outage Window

Scheduled downtime required for the deployment.

3.3 Artifact Verification

Ensuring all binaries, containers, or code packages are approved and ready.

4. Deployment Process

4.1 System Outage Initiation

Steps to take systems offline or route traffic to holding pages.

4.2 Code Deployment

Step-by-step instructions (e.g., pulling containers, running CI/CD pipelines).

4.3 Database Migrations

Execution of schema changes or data migrations.

4.4 Environment Variables

Updating configuration maps or secrets.

5. Post-Deployment Verification

5.1 Sanity Checks

Immediate post-deployment checks to ensure system stability.

5.2 End-to-End Validation

Confirming critical business workflows are operational.

5.3 Monitoring Handover

Verification that logs and alerts are capturing the new deployment.

6. Rollback and Recovery

6.1 Rollback Triggers

Defining what metrics or failures necessitate a rollback.

6.2 Rollback Procedure

Step-by-step instructions to revert to the previous stable version.

7. Validation Rules

7.1 Required Sections

The uploaded DG document should include the following main sections:

- Introduction
- Deployment Architecture
- Pre-Deployment Activities
- Deployment Process
- Post-Deployment Verification
- Rollback and Recovery
- Validation Rules
- Appendices

7.2 Validation Criteria

The document validation system should check whether required sections are available, whether section names are similar to the DG template, whether sections follow the correct order, and whether the document belongs to the correct document type.

7.3 Scoring Criteria

Score Range	Validation Result
75-100	Accept
50-74	Needs Improvement
0-49	Reject

8. Appendices

8.1 Appendix A: Deployment Scripts

Reference to automated scripts used.

8.2 Appendix B: Additional Information

Any extra information related to the deployment.
