

Installation Guide (IG) Template

Reference Template for Document Validation System

Document Information

Project Name: [Project Name]

Document Title: Installation Guide (IG) Template

Document Version: 1.0

Prepared By: [Author Name]

Date: [Date]

Revision History: [Revision Details]

Approval History: [Approval Details]

1. Introduction

1.1 Purpose

Describe the purpose of this Installation Guide. Mention the system name and what environments this installation covers.

1.2 Scope

Explain what is and is not covered by this document (e.g., specific hardware, network setups).

1.3 Definitions, Acronyms, and Abbreviations

List important terms used in the guide.

1.4 References

List related documents such as architecture diagrams or release notes.

1.5 Document Overview

Briefly explain how the rest of the document is organized.

2. System Requirements

2.1 Hardware Requirements

CPU, RAM, disk space, and physical infrastructure.

2.2 Software Dependencies

Operating system versions, required libraries, runtimes, and third-party software.

2.3 Network Requirements

Required open ports, firewalls, and DNS configurations.

3. Pre-Installation Preparation

3.1 Access and Permissions

Required user roles (e.g., root/admin access).

3.2 Backup Procedures

Steps to back up existing configurations or databases before starting.

3.3 Environment Readiness Checks

Verification that all prerequisites are successfully met.

4. Installation Procedure

4.1 Step-by-Step Installation

Detailed, chronological steps required to install the software.

4.2 Configuration Files

Instructions on editing necessary `.env`, `.yaml`, or `.conf` files.

4.3 Database Setup

Scripts or commands required to initialize or migrate the database.

5. Post-Installation Configuration

5.1 Service Integration

Connecting the application to external services (e.g., payment gateways, email servers).

5.2 Security Hardening

Applying necessary security patches or access restrictions post-install.

6. Verification and Testing

6.1 Service Status Checks

Commands to verify services are running properly.

6.2 Smoke Testing

Basic tests to ensure the core installation is functional.

7. Rollback Plan

7.1 Uninstallation Steps

How to safely remove the software if the installation fails.

7.2 Restoration

How to restore the system to its pre-installation state.

8. Validation Rules

8.1 Required Sections

The uploaded IG document should include the following main sections:

- Introduction
- System Requirements
- Pre-Installation Preparation
- Installation Procedure
- Post-Installation Configuration
- Verification and Testing

- Rollback Plan
- Validation Rules
- Appendices

8.2 Validation Criteria

The document validation system should check whether required sections are available, whether section names are similar to the IG template, whether sections follow the correct order, and whether the document belongs to the correct document type.

8.3 Scoring Criteria

Score Range	Validation Result
75-100	Accept
50-74	Needs Improvement
0-49	Reject

9. Appendices

9.1 Appendix A: Troubleshooting

Common installation errors and resolutions.

9.2 Appendix B: Additional Information

Any extra information related to the installation.
