

Maintenance Guide (MG) Template

Reference Template for Document Validation System

Document Information

Project Name: [Project Name]

Document Title: Maintenance Guide (MG) Template

Document Version: 1.0

Prepared By: [Author Name]

Date: [Date]

Revision History: [Revision Details]

Approval History: [Approval Details]

1. Introduction

1.1 Purpose

Describe the purpose of this Maintenance Guide to ensure system longevity.

1.2 Scope

Define the software and hardware components requiring maintenance.

1.3 Definitions, Acronyms, and Abbreviations

List important terms used in the guide.

1.4 References

List related documents such as architecture diagrams or release notes.

1.5 Document Overview

Briefly explain how the rest of the document is organized.

2. Maintenance Strategy

2.1 Scheduled Maintenance

Planned windows for updates and patching.

2.2 Emergency Maintenance

Protocol for critical zero-day patches or hardware failures.

3. Routine Maintenance Tasks

3.1 OS and Software Patching

Procedures for updating underlying dependencies.

3.2 Database Maintenance

Rebuilding indexes, clearing temporary tables, and defragmentation.

3.3 File System Cleanup

Rotating logs and clearing cached/temporary files.

3.4 Certificate Renewal

Steps to update SSL/TLS certificates before expiry.

4. System Health and Performance Tuning

4.1 Performance Baselines

Expected resource utilization parameters.

4.2 Optimization Procedures

Steps to tune applications or databases if performance drops.

4.3 Capacity Planning

Guidelines for when to scale up or out based on historical data.

5. Troubleshooting and Diagnostics

5.1 Diagnostic Tools

Tools available for deep-dive analysis (e.g., APM tools, network profilers).

5.2 Error Code Directory

A list of system-specific error codes and their meanings.

6. Validation Rules

6.1 Required Sections

The uploaded MG document should include the following main sections:

- Introduction
- Maintenance Strategy
- Routine Maintenance Tasks
- System Health and Performance Tuning
- Troubleshooting and Diagnostics
- Validation Rules
- Appendices

6.2 Validation Criteria

The document validation system should check whether required sections are available, whether section names are similar to the MG template, whether sections follow the correct order, and whether the document belongs to the correct document type.

6.3 Scoring Criteria

Score Range	Validation Result
75-100	Accept
50-74	Needs Improvement
0-49	Reject

7. Appendices

7.1 Appendix A: Maintenance Logs

Template for recording completed maintenance tasks.

7.2 Appendix B: Additional Information

Any extra information related to system maintenance.
