

Operations Guide (OG) Template

Reference Template for Document Validation System

Document Information

Project Name: [Project Name]

Document Title: Operations Guide (OG) Template

Document Version: 1.0

Prepared By: [Author Name]

Date: [Date]

Revision History: [Revision Details]

Approval History: [Approval Details]

1. Introduction

1.1 Purpose

Describe the purpose of this Operations Guide for day-to-day management.

1.2 Scope

Define the systems and administrative boundaries covered.

1.3 Definitions, Acronyms, and Abbreviations

List important terms used in the guide.

1.4 References

List related documents such as architecture diagrams or release notes.

1.5 Document Overview

Briefly explain how the rest of the document is organized.

2. System Overview

2.1 Operational Architecture

High-level view of how the system runs in production.

2.2 Core Components

Key services that require monitoring and management.

3. Daily Operations and Routine Tasks

3.1 Start-up and Shutdown Procedures

How to safely start, restart, or stop services.

3.2 Batch Jobs and Schedulers

Managing CRON jobs or automated background tasks.

3.3 Log Management

Where logs are stored and how to view them.

4. Administration and Management

4.1 User Access Management

Provisioning, updating, and revoking user access.

4.2 Configuration Management

Adjusting operational settings without redeploying.

4.3 Data Management

Routine data imports, exports, or archiving tasks.

5. Backup and Recovery Operations

5.1 Backup Schedule

Frequency and types of backups (incremental vs. full).

5.2 Recovery Procedures

Steps to restore data from a specific backup point.

6. Incident Management

6.1 Alerts and Monitoring

Key metrics to watch (CPU, memory, traffic).

6.2 Escalation Matrix

Who to contact for specific severity levels.

6.3 Known Issues & Workarounds

Catalog of common operational hiccups and their fixes.

7. Validation Rules

7.1 Required Sections

The uploaded OG document should include the following main sections:

- Introduction
- System Overview
- Daily Operations and Routine Tasks
- Administration and Management
- Backup and Recovery Operations
- Incident Management
- Validation Rules
- Appendices

7.2 Validation Criteria

The document validation system should check whether required sections are available, whether section names are similar to the OG template, whether sections follow the correct order, and whether the document belongs to the correct document type.

7.3 Scoring Criteria

Score Range	Validation Result
75-100	Accept
50-74	Needs Improvement
0-49	Reject

8. Appendices

8.1 Appendix A: Contact List

Key support personnel.

8.2 Appendix B: Additional Information

Any extra information related to daily operations.
