

Enhanced API Documentation Template

Reference Template for Document Validation System

This template is designed as a comprehensive reference for validating API documentation. It supports section validation, completeness checking, endpoint consistency, and overall document structure.

Document Information

- Project Name
- Document Title
- API Version
- Document Version
- Prepared By
- Date
- Revision History
- Approval History

1. Introduction

- 1.1 Purpose
- 1.2 Scope
- 1.3 Definitions, Acronyms and Abbreviations
- 1.4 References
- 1.5 Document Overview

2. API Overview

- 2.1 Business Context
- 2.2 Base URL
- 2.3 API Versioning Strategy
- 2.4 Authentication
- 2.5 Authorization
- 2.6 Supported Content Types
- 2.7 Environments (Development/Test/Production)

3. Endpoint Specifications

- Endpoint ID
- HTTP Method
- Endpoint URL
- Description
- Business Purpose
- Authentication Required
- Headers

- Path Parameters
- Query Parameters
- Request Body
- Response Body
- Response Examples
- Error Responses
- HTTP Status Codes
- Pagination/Filtering/Sorting (if applicable)

4. Data Models

- Request Models
- Response Models
- Field Definitions
- Validation Rules
- Enumerations

5. Security Requirements

- Authentication
- Authorization
- Encryption
- Sensitive Data Handling
- Rate Limiting
- CORS Policy
- Audit Logging

6. Error Handling

- Standard Error Format
- Application Error Codes
- Retry Behavior
- Timeout Handling

7. Performance & Operational Requirements

- Response Time
- Throughput
- Availability
- Caching
- Monitoring & Logging

8. Integration Requirements

- External Services
- Dependencies
- Webhooks

- Third-party APIs

9. Testing & Acceptance

- Sample Requests
- Sample Responses
- Acceptance Criteria
- API Test Cases

10. Validation Rules

- Required Sections
- Validation Criteria
- Scoring: 75–100 Accept, 50–74 Needs Improvement, 0–49 Reject

11. Appendices

- Glossary
- Change Log
- Additional Notes
